

UCCUGVAC1201 Environmental Studies
First Year Even semester Examination-2024

Full marks-80

Time-3 Hours

Group-A

Give tick (✓) any 20 questions from the following. 20 x 1 = 20

1. The pyramid of energy in a forest ecosystem is-
☒ A) Always upright B) always inverted C) both upright and inverted D) none of this
2. The importance of ecosystem is
A) Flow of energy B) cycling of material ☒ C) both the A and B D) none of these
3. What is biodiversity?
☒ A) The variety of life forms on Earth B) The total number of species on earth
C) The number of animals in a specific ecosystem D) The number of plants in a given area.
4. Which biome has the highest biodiversity?
A) Grassland B) desert ☒ C) Tropical rainforest D) none of these.
5. Which of the following pollutants are responsible for the cause of smog
A) From incinerators B) emissions from vehicle C) both A and B D) none of these.
6. Which of the following is called secondary air pollutant?
A) Sulphur Dioxide B) Oxides of Nitrogen C) Ozone D) Carbon monoxide
7. What percentage of oxygen present in the atmosphere?
A) 60% ☒ B) 21% C) 34% D) 59%
8. ----- is commonly used chemical method for purifying water
A) bromination B) fluorination C) filtration ☒ D) chlorination
9. Which of the following is a waterborne disease?
A) typhoid B) Cholera C) diarrhoea ☒ D) all of the above.
10. BOD stands for
☒ A) Biological oxygen demand B) biochemical oxygen demand C) biological oxidation demand D) biotic oxidation demand.
11. How many National parks are present in India?
A) 45 B) 100 ☒ C) 106 D) 220
12. Which state of the India has largest forest cover?
A) Kerala B) Kashmir ☒ C) Madhya Pradesh D) None of these.
13. In which galaxy our solar system is located?
☒ A) Milky Way B) Andromeda C) Ursa Major D) Orion way
14. Which of the following is coldest region of atmosphere?
☒ A) Exosphere B) Mesosphere C) Stratosphere D) Troposphere
15. What type of dominant organisms found on the earth now a days?
☒ A) carnivores B) rodent C) herbivores D) marine mammals.
16. Chipko movement is concerned with
A) animal breeding B) plant breeding C) Tiger project ☒ D) plant conservation.

17. Number of biological Hotspot in the world is -
A) 14 B) 74 C) 36 D) 25

18. Coal and natural gas are example of.....minerals
A) non-metallic B) energy C) ferrous D) non ferrous.

19. Which of the following is not a major Greenhouse gas
A) carbon dioxide B) Ozone C) Water vapour D) carbon dioxide.

20. The normal greenhouse effect is essential for sustenance of life on earth as it helps in maintaining the average temperature of the earth to-
A) 15°C B) 33°C C) 18°C D) 50°C

21. The main sources of urban atmospheric pollution is
A) Industries B) transportation C) domestic waste D) Municipal wastes

22. The upper layer of the lithosphere is called
A. Mantle B. Core C. Crust D. none of these.

23. The two most important gases responsible for global warming are
A) Oxygen & Nitrogen B) Carbon & Methane C) Hydrogen & Ozone D) None of these.

Group- B

Answer any 6 questions from the following.

1. What is food chain? Define the grazing food chain and detritus food chain with example.
What is biogeochemical cycle? 2+5+3

2. Define biodiversity. Write the uses and values of biodiversity. What are the threats to biodiversity? 2+4+4

3. Discuss briefly about the Chipko Movement. 10

4. What is the state of environmental governance and policies in India? Write a short note on environmental protection act. 5+5

5. How are the environment and Public Health related to each other? What is airborne disease? Give an example. Write the full form of HIV and AIDs. 5+2+1+2

6. What are the main threats to World forest? Discuss the factors of forest conservation. What is total forest cover percentage of the total geographical area of India? 5+4+1

7. How many zones are the environment classified into? Briefly describe any one environmental zone. 2+8

8. Write any two short notes from the followings. [5+5]
A) How oxygen evolved in the primitive Earth atmosphere.
B) Global Warming
C) Bhopal gas disaster
D) Problems of coal mining industries in India.

9. What is air pollution? Define the primary and secondary air pollutants with examples. Mention a few processes to reduce air pollution from the atmosphere. 2+4+4
