

ALLAH UNIVERSITY

End Semester Examination (Spring Semester) 2022
(B.Tech CSE 2nd Year 4th Semester)

Subject Name: Object Oriented Programming Systems
Full Marks: 80
Time: 3 Hours
Subject Code: CSEUGPC05

Group- A

Answer any six questions (5 Marks Each)

6 X 5=30

1. Differentiate Compile Time Polymorphism and Runtime Polymorphism.
2. Elaborate how a new thread can be created in Java with proper code snippet.
3. What is the difference between a class, abstract class and interface?
4. Describe different kinds of Inheritance with a diagram.
5. What are the different types of variables in Java?
6. How to create your own package in Java?
7. Describe Dynamic Method Dispatch.

Group- B

Answer any five questions (10 Marks Each)

5 X 10=50

8.
 - a) Describe all the features of an Object Oriented Programming.
 - b) Describe Method Overloading and Method Overriding.
9. Draw and describe the state transition diagram of a thread in Java.
10. What do you mean by Exceptions in Java? How do we handle it?
11. What is an applet in Java? Draw and describe the life cycle of an applet in Java.
12. Write a Java program to create a class Shape. Using constructor overloading initialize values of Shape objects named Circle, Square, Rectangle and Triangle.
13. What is the need for access modifiers in Java? Differentiate between different access modifiers in Java.
